MEMORANDUM FOR: Chairman, Ad Hoc Requirements Committee

SUBJECT : Addition to High Priority Target List

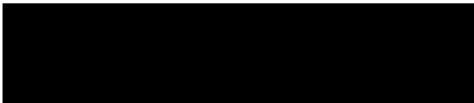

1. On the basis of information presented in the attached Current Support Memorandum prepared by the Office of Research and Reports, it is requested that the Dnepropetrovsk Complex be considered a High Priority Target for AQUATONE collection. It is also requested that the Category Interest pertaining to this target be amended to include Category D - Guided Missiles.

2. It is expected that AQUATONE coverage could provide valuable data on the overall size, arrangement and capability of the suspected plant or complex as well as to provide possible direct evidence of current guided missile activity.

3. As stated on the cover sheet, the attachment represents the immediate views of the Office of Research and Reports. It has been coordinated within CIA but not with the IAC agencies.
